[IT INFRASTRUCTURE AND MANAGEMENT]

ZONE NETWORKS LTD PROVIDE IT SUPPORT SERVICES THROUGHOUT LONDON AND SURROUNDINGS, HELPING SMALL TO MEDIUM SIZED BUSINESSES GET THE MOST OUT OF THEIR IT SYSTEMS.

- | Managed IT Services
- | Hardware & Software Solutions
- | Over 15 Years' Experience
- | 24/7 Support Reducing Business Downtime

CALL THE TEAM TODAY **0208 965 5755**

MANAGED IT SERVICES

Our friendly and professionally qualified team of technical experts (Microsoft certified) manage all IT support requests. We take over everything from application licensing to telephony, new starters and leavers, hardware and software, storage, backup and server management.

[“WE ENSURE THAT ALL YOUR STAFF HAVE EQUIPMENT, PROCESSES AND SUPPORT THAT THEY NEED SO THEY CAN GET ON WITH WHAT THEY DO BEST!”]

Our experience is key

Working with SME's for the last 15 years has led to a greater knowledge of the key issues that businesses face. Zone Networks takes supplier relationships, engineer accreditation and software support services seriously. We liaise with all parties, giving you a single point of contact. In addition, our technicians keep you informed every step of the way! We are proactive – not reactive!

We believe that prevention is always better than the cure

Our qualified engineers ensure you are never left fighting fires and instead always in the forefront when it comes to your IT provision. Our support services are backed up with unlimited on-site support at no additional cost, so it is in our interest to make sure we continually deliver robust and up-to-date solutions.

Choosing the right hardware

As official partners with leading vendors, we will assess your requirements, and working to your timescales and budget, can supply and install a full range of technology solutions including workstations, servers, printers, and other network devices.

24/7 Managed IT support

While our regular hours are weekdays 9-6, we also offer a complete out-of-hours service, so you are never left stranded.

Ad-hoc support

As an alternative to managed IT support, we can also help your in-house team to deliver specific projects or just provide an extra pair of hands when you need to get things done!

[BUSINESS CLOUD SERVICES]

CLOUD-BASED SUBSCRIPTIONS PROVIDE THE ULTIMATE IN FLEXIBILITY, SCALABILITY AND EASE AND SPEED OF DEPLOYMENT AND HAS BEEN DESIGNED SPECIFICALLY TO HELP COMPANIES ACHIEVE MORE FOR LESS.

- Cloud Storage
- Microsoft 365
- Google Workspace
- Virtual Desktop / Server
- IP Telephony

CALL THE TEAM TODAY **0208 965 5755**

SHARE AND COLLABORATE DOCUMENTS, WHEREVER YOU HAPPEN TO BE.

Storing work in the cloud means you can access files from anywhere in the world. Any work you create is always up-to-date and backed up. You can invite people from inside or outside your organisation to share these documents, removing the need to send multiple copies via email.

[“FROM OFFICE/EMAIL MIGRATIONS TO HYBRID ENVIRONMENTS, WE CAN HELP YOUR BUSINESS NAVIGATE AND GET THE BEST FROM THE CLOUD.”]

Cost-effective

Cloud storage also allows you to eliminate your physical servers and external hard drives, and all the accompanying costs and maintenance fees.

Microsoft 365

Integrating the Microsoft Office suite including applications such as Word, Excel, PowerPoint, and Outlook, along with Microsoft's hosted servers (such as Exchange email and Skype for Business).

Google Workspace

Includes tools like Gmail, Calendar, Meet, Chat, Drive, Docs, Sheets and more. Google offers well-proven tools for collaboration, organisation, and security for all business sizes.

Virtual desktop / server

Looking for a high spec IT infrastructure without the burden of physical servers, licensing, maintenance, backups and unexpected costs? Each member of staff can access their office desktop from anywhere around the world, providing an accessible, efficient and practical solution to your IT requirements.

VOIP telephony

Looking for a flexible telephone system which is cost-effective and allows you to answer calls wherever you are? VoIP provide a simple, seamless transition from traditional lines. By simply downloading an app, your staff can work from home or the office and transfer calls in between colleagues. The best thing is, no configuration is required!

[IT CONSULTANCY]

WE WORK TO FULLY UNDERSTAND AND ANALYSE YOUR BUSINESS GOALS TODAY AND TOMORROW, THEN HELP YOU ACHIEVE THEM IN THE MOST COST-EFFECTIVE, CONVENIENT, AND TIMELY WAY.

- Tailor-made IT Solutions
- Network Design and Management
- Cost-saving
- Moving Office

CALL THE TEAM TODAY **0208 965 5755**

YOUR BUSINESS AND UNIQUE GOALS ARE OUR PRIORITY

There are no fixed solutions in our IT consultancy services; everything we do is tailored to fit your organisation needs and budget. You might be interested in our strategic IT advice, relocating your infrastructure to the cloud, implementing cybersecurity and back-up systems, devising a disaster recovery plan and investigating new networking and telephony options to future-proofing your whole set up.

[“WITH TRANSPARENT PRICING AND TIMESCALES, WE’RE HAPPY TO TAKE ON AS MUCH OR AS LITTLE AS YOU NEED US TO, WHETHER THAT’S FULL OWNERSHIP FROM CONCEPT TO COMMISSIONING OR MANAGING YOUR OFFICE MOVE, THE CHOICE IS YOURS.”]

Network design

We work with clients to be pro-active rather than reactive. We design your network from the ground up working closely with you to establish the current and future needs of your business and then provide you with a plan that you can follow. Do you require a SAN or virtualisation? Exchange Server or hosted Outlook? A file server or DropBox?

Moving office can seem as daunting as moving house

Following a full site survey, we will assess your IT and telecommunications requirements, and strive to work towards your budget. Our engineers will ensure that important decisions such as the installation of new phone lines or internet services are taken at the right time to ensure there are no delays. We will also work closely with other contractors or service providers. Having moved many business setups of all shapes and sizes, we are aware of the potential pitfalls to avoid.

Why Zone Networks?

With over 15 years of industry experience, we are able to provide the most bespoke solutions for any organisation big or small. We pride ourselves in our excellent customer service, ensuring we keep you informed every step of the way.

Cost-saving and effective

Through our industry experience, our specialist and fully qualified IT consultants have the depth and breadth of knowledge and reliability to advise SME's on how to maximise their investment in IT and reduce their costs, inefficiencies and operational timelines.

What's more, we're fully independent, objective and vendor-neutral so you can be sure that the technology solutions and services we recommend aren't simply best in class but best for your business, its operations and goals.

[REMOTE WORKING]

REMOTE WORKING OFFERS GREAT FLEXIBILITY FOR YOUR EMPLOYEES, BUT THERE CAN BE IMPLICATIONS IF NOT DONE SUCCESSFULLY.

Is their home working space safe, and their network secure?

Do they have the right software and apps to do their job effectively?

Is their internet speed appropriate?

Can you monitor your staff effectively?

- Home Office Setup
- Microsoft Teams Configuration
- Zoom Meetings
- Staff Productivity Monitoring

CALL THE TEAM TODAY **0208 965 5755**

SETTING UP A HOME OFFICE

The 'right' computer setup is essential in maintaining the productivity you require. However, remote working is not just about having a good screen or pc, you also need to make sure your employees are cyber secure and equipped with appropriate software so they can both get on with their job, and work closely with their colleagues. Your dedicated account manager can set up any home working space, considering everything from hardware to security, without you having to worry about a thing.

“WORKING FROM HOME ON A LARGE SCALE HAS CHANGED THE WAY BUSINESSES WORK FOREVER; WHATEVER YOUR REQUIREMENTS, YOU CAN FEEL ASSURED THAT WE CAN OFFER SOMETHING FOR EVERY BUDGET, AND EVERY TEAM.”

Remote office

Offering a highly-reliable and secure VPN connection to your office network, Remote Office enables access to vital desktops and applications from anywhere, on any device, while minimising IT hassles with expert setup and management. Whether working from home or hotel, in UK or abroad, conference or cafe, the data you need is always accessible.

Staff productivity monitoring

Want to check the productivity of your staff when at home? Make sure they are taking a break for their mental health and wellbeing? We can provide you with the stats that you need to put your mind at rest.

Connect with your team from anywhere

Working with Microsoft teams, the possibilities are endless. With a user friendly app for both mobiles and desktops, you can arrange meetings and events for up to 10,000 people. We can help configure team's setup and provide training to your staff, so they are confident in using teams wherever they are.

Zoom meetings

Zoom is an alternative platform for virtual meetings, events and training. This user-friendly communication software is an easy, reliable cloud platform for video and audio conferences for upto 1000 people.

[DISASTER RECOVERY AND BACKUP SERVICES]

WHEN THINGS GO WRONG, DO YOU HAVE A LIFELINE?

EFFECTIVELY MONITORING AND ADMINISTERING BACKUP AND DISASTER RECOVERY CAN BE A DRAIN ON YOUR IT RESOURCE AND EXTREMELY COSTLY TO YOUR BUSINESS IF HANDLED INCORRECTLY. WE MANAGE BOTH ASPECTS FOR YOU AND PLAN FOR ANY EVENTUALITY!

- Managed Backup
- Cloud Backup
- Premises Backup
- Disaster Recovery

CALL THE TEAM TODAY **0208 965 5755**

WHO KNOWS WHAT IS AROUND THE CORNER?

In our paperless society, it is even more imperative that businesses have a backup and disaster recovery plan in place. Our solutions are designed to reduce the risk of unpredicted data loss, and more importantly allows us to restore your systems back to how they were prior to any unexpected incident.

[“BE IT A MALWARE ATTACK, POWER FAILURE, FIRE, FLOOD, OR THEFT, IT IS IMPERATIVE THAT YOUR BUSINESS SYSTEMS ARE BACK UP AND RUNNING WITHOUT DELAY.”]

Managed backup with customized retention policies

Zone Networks provide fully managed, Cloud, Hybrid and Onsite Backup services to protect your business data in a highly secure environment. We are experts in providing businesses with the most suitable backup solution, customising how much data you would like to store, and for how long.

Cloud backup

Cloud backup provides you with the flexibility to grow as you need without having to invest in expensive hardware. Our GDPR compliant backup solutions gives you the peace of mind that your business data is secure. We use the highest military-grade encryption that will keep your data encrypted in transit and at rest.

Premises backup

Unlike cloud backup, on-premises data backup involves the storage of backup data files locally on hardware at your company's premises. This solution comes with a higher upfront capital investment and a vulnerability to natural disasters but there are advantages to using them when the cloud is not a practical option.

Plan for the worst

In the event of a disaster, if your business does not have a robust disaster recovery plan in place you face downtime, potential data breaches and a loss of revenue.

[ACCREDITATIONS]

Accredited by Cyber Essentials, an assurance scheme operated by the National Cyber Security Centre, makes it clear that we adopt good practice in information security and demonstrate a huge commitment to safeguarding your data.

[CYBER SECURITY]

OUR CYBER SECURITY CONSULTANCY INCLUDES ADVANCED CAPABILITIES IN DISASTER RECOVERY, DATA PROTECTION AND COMPLIANCE. CERTIFIED BY CYBER ESSENTIALS, YOU CAN REST ASSURED THAT YOUR DATA WILL BE WELL PROTECTED WITH US.

- Cybersecurity
- Cyber Essentials
- Managed Antivirus
- Firewall & Security

CALL THE TEAM TODAY **0208 965 5755**

ADAPTIVE CYBER SECURITY

Think of us as your first line of defence in an increasingly hostile world. Cybercrime is big business and criminals have become highly sophisticated. Companies of all sizes are targets but, as with any other form of crime, they will go after the most vulnerable first. Our focus is about building capacity within your company and team to keep your systems safe and secure.

[“WE CAN WORK WITH YOUR TECHNOLOGIES, PEOPLE, AND PROCESSES TO PREVENT YOUR IT, BUSINESS AND DATA BECOMING COMPROMISED.”]

Think your systems are secure?

Our well-qualified cyber experts will survey your existing systems and provide you with a comprehensive report on your strengths and vulnerabilities.

Next-generation firewall

With so much on the market it can be difficult to know which product to choose. We will advise you on hardware, which is not only built to cope with anything, but also keeps your costs down.

Managed antivirus

Advanced next generation products protect businesses from the most sophisticated threats. Partnering with leading antivirus suppliers allows us to provide you with bespoke, and cost-effective solutions, fit for your business needs.

Staff training

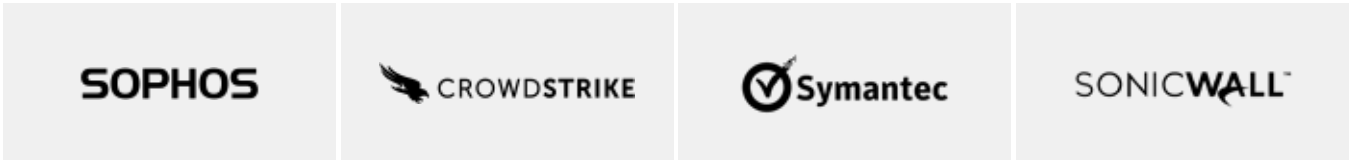

A good cyber security strategy can depend greatly on the awareness levels of your staff. Training them on the latest IT threats and how to prevent them is a top priority.

[ACCREDITATIONS]

Accredited by Cyber Essentials, an assurance scheme operated by the National Cyber Security Centre, makes it clear that we adopt good practice in information security and demonstrate a huge commitment to safeguarding your data.

[CABLING AND NETWORKING SERVICES]

FROM NETWORK DESIGN TO STRUCTURED CABLING INSTALLATIONS
- WE HAVE IT COVERED FOR YOU AND YOUR BUSINESS.

- Network Design
- Network Cabling
- Internet Connectivity
- Wi-Fi Solutions

CALL THE TEAM TODAY **0208 965 5755**

STRUCTURED CABLING SYSTEMS

Structured cabling systems can have a significant effect on the speeds at which data is transferred between connected devices. Businesses tend to review their cabling requirements when they move premises or add new users but through our experience, we find that this is one area of your network that can very soon become unmanageable if it is not reviewed at regular intervals.

A cabling solution fit for YOUR business

We work with you to design a network cabling solution fit for your unique business needs, taking into account budgets and timescales. With years of experience, you can rely on us in ensuring the installation is fully completed to exact specifications and requirements.

A clean job

Our engineers work to extremely rigorous standards to ensure your cabling is fit for the task ahead, saving you time and money in the long run. We use data cabinets with cable management systems and clear labelling to prevent a tangle of connections that would be difficult to troubleshoot at a later date.

[**"WITH OVER 15 YEARS' EXPERIENCE, NETWORKS IS IN OUR NAME AND DNA. VERIFIED BY CONSTRUCTION LINE AND OTHER RELEVANT BODIES, WE WORK TOWARDS THE HIGHEST POSSIBLE SAFETY STANDARDS AND HAVE EXCELLENT FEEDBACK THAT NEVER FAILS TO IMPRESS."**]

INTERNET AND WI-FI SOLUTIONS

Getting internet sorted and fast!

We will liaise with leading telecom suppliers and internet service providers to provide a wide choice of solutions from broadband to dedicated lease lines. Your dedicated Account Manager will manage the whole process from start to finish, sparing you any unnecessary complications when moving office or changing service providers.

Wi-Fi solution with cloud access

In this new age of connected devices Wi-Fi is the key to ensure all devices communicate effectively. A high quality Wi-Fi systems deals with latency, increased performance in a demanding high-density environment. Central controller systems give you good visibility on where the devices are connecting and how they are performing, to help us troubleshoot effectively backed by real statistics.

[ACCESS CONTROL]

ZONE NETWORKS PROVIDES A USER-FRIENDLY AND FLEXIBLE NETWORKED ACCESS CONTROL SYSTEM DESIGNED TO MAKE THE MANAGEMENT OF ANY BUILDING SIMPLY INCREDIBLE.

- SSAIB Certified
- Sophisticated System Integration
- High Security
- Remote Access
- Door Entry System

CALL THE TEAM TODAY **0208 965 5755**

ACCESS CONTROL FOR SMARTER BUILDING MANAGEMENT

Suitable for any business size, our access control system can fully integrate with your Roll Call and Muster Report, CCTV, Intruder Alarm, Fire Alarm, and Door Entry system, making it a complete security solution that you can rely on. These systems are already favoured by many organisations including Lawn Tennis Association, Toyota Motor Manufacturing Ltd and King's College Hospital.

“EASY TO USE AND WITH EXCELLENT FEATURES, OUR ACCESS CONTROL SYSTEM MOVES BEYOND THE BASICS OF MANAGING THE FLOW OF PEOPLE AROUND A BUILDING, OFFERING BENEFITS LIKE BUILDING CONTROL AND SYSTEM INTEGRATION.”

SSAIB Registered (Security System and Industry Board)

We have the accreditations, expertise and experience to design and install an access control system that allows people to get to where they are needed, while also preventing unauthorised access to restricted areas.

Straightforward and easy to use

Our intuitive access control incorporates simple system management. Adding users and managing reports can be done with no need for specialist technical knowledge.

Simplify HR processes

- **Card designer** – We can create professional looking ID cards that can double up as access cards.
- **Timesheet and Timeline** – A quick and easy way to monitor staff time and attendance, as well as sick days and holidays throughout the year making HR processes smooth and simple.

Reduce your utility bill payments

Set the system to switch off utilities automatically when the building is empty, saving you money on energy bills.

COVID-19

A non-contact door exit button provides a hygienic solution to unlocking doors, allowing you to present your hand to the reader without making contact, for hands-free door control.

Emergency lockdown

Secure your building at the touch of a button. Security lockdown is the ultimate for businesses looking to secure their premises in the event of an emergency.

Control your building remotely

From wherever you are, you can monitor the doors on your site. You can also control various areas within your building, rather than programming each door individually.

OUR PARTNERS AND ACCREDITATIONS

[DOOR ENTRY]

YOUR COMPLETE VIDEO DOOR ENTRY SYSTEM

We provide a versatile solution for a range of sites including, private apartments, high-end complexes, multi-tenant buildings, vehicle access and private offices and factories. Our door entry system is easy to use and comes in a stylish, discreet design, offering a flexible and high security solution.

[“A SIMPLE SECURITY SOLUTION THAT ALLOWS YOU TO IDENTIFY AND AUTHORISE A VISITOR BEFORE THEY CAN ACCESS YOUR PREMISES.”]

Why Zone Networks?

- Custom solutions with the full entry range
- Premium and cost-effective product solutions available
- Robust solution with vandal resistant panels
- Install with minimum disruption

The next generation of door entry

Our door entry system consists of three components; external panel, door control unit, and internal monitor handset. On approaching your building, visitors call via the bell button on the external panel. Once you have recognised the caller via the full colour, smart audio/video monitor, you can grant or deny access as applicable.

[INTRUDER ALARM SYSTEMS]

PROTECT THE THINGS YOU LOVE WITH A STATE-OF-THE-ART ALARM SYSTEM. OUR RANGE OF WIRELESS DETECTORS ARE ATTRACTIVE, EASY TO USE, AND TECHNOLOGICALLY BUILT FOR MAXIMUM EFFICIENCY.

- | Wireless Intruder Alarm Products and Installation
- | Approved by SSAIB - Security Systems and Alarms Inspection Board
- | Retail, Commercial, or Domestic Use
- | Alarm Maintenance and Monitoring
- | Zone Connect App

CALL THE TEAM TODAY **0208 965 5755**

IMAGINE THE FEELING OF COMFORT THAT COMES FROM KNOWING THAT YOUR PREMISES IS FULLY PROTECTED.

Today, people need solutions that are mobile and adaptable to their environment. We use wireless detectors which are built to compliment these shifting realities of modern life. The products' clean lines and ergonomic design features are suitable for any home or business setting. Our systems utilize an attractive and easy to-use app which provides you with powerful interfaces to interact and automate your home and business directly from your smartphone."

"WE HAVE SECURED COMMERCIAL, RETAIL, AND RESIDENTIAL PROPERTIES IN AND AROUND LONDON, DELIVERING STATE-OF-THE-ART SECURITY PRODUCTS, ADVANCED PIONEERING TECHNOLOGY AND SUPERIOR SYSTEM DESIGN."

Why Zone Networks Ltd?

With the added assurity that comes with Zone's SSAIB certification, you can be confident that our engineers have years of experience in the field of wireless technology.

Hassle-free installation and maintenance

Our intruder alarm products are easy to operate and can be installed with minimum disruption. Due to its 5-year battery life and a 'built to last' design, you won't have to worry about continually changing batteries or upkeep.

Perfect for domestic, commercial, and retail use

Our alarm systems are aesthetically appealing to fit in with all settings. For larger premises, the wireless range can extend to 500 meters meaning one single detector can cover that whole building. This is more cost effective than having to wire an entire building with cable, cutting down on install time, and ultimately saves you money.

Alarm monitoring and maintenance

Our customers benefit from an annual service visit, 24/7 alarm monitoring and key holding services so that no matter how busy you are, your security is being taken care of!

Keeping your data safe

Your security settings and home automation controls are safely contained and stored within the control panel. All notifications and communications are fully encrypted and secure.

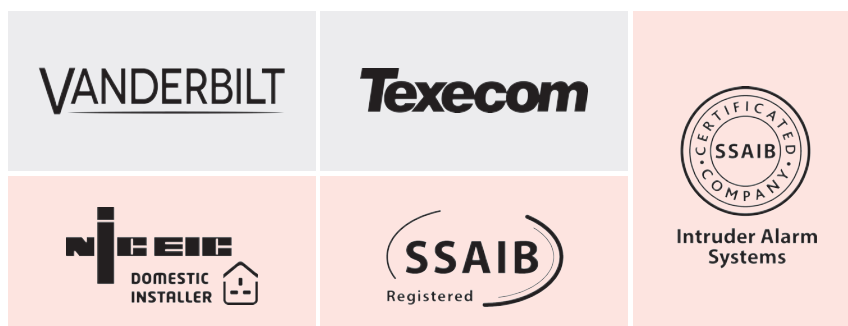

Use your smartphone to connect to your security system

The easy-to-use Zone app has been carefully designed to provide you with quick access to a host of features, allowing you to tailor the app experience to your own needs, without resorting to complicated programming.

The app allows you to:

- Set or unset your system
- Check event logs
- Receive email alerts
- Control who can remotely access your system.
- Switch easily between multiple sites
- Monitor and control the status of your premises from any remote location
